Model FP-A

## Technical Features

- Small size, light weight and Good in appearance.
- Front removable cover.
- Enable splice and termination.
- Special design feature maintains correct fiber .
- The pigtail incorporates bend – insensitive single mode fiber conforming to ITU-T G 657-A.
- Material : ABS
- Operation Temperature -40 to +75 C
- Storage Temperature -40 to +80 C
- Adapter : SC/APC
- Number of adapter : 2

## Standard Configuration:

Color: Ivory  
White

## Application:

Suitable for various modules and multimedia interfaces  
FTTH  
Optical communication system

Model FP-B
